

Live Great

from Giant Tiger

When we reached out to Pat and his team at the Fergus Giant Tiger to see if they could help us finish the farmhouse, they quickly jumped in to help, providing us with many everyday necessities. They know many people who have moved to our community without a family doctor and will sit on a waitlist until one comes available. That could be years without access to a doctor, which is very scary! Pat's team worked hard to ensure that the Farmhouse had all the essentials for you to stay comfortably while you are considering calling this home and working with our community.

Thank you to the Giant Tiger team for recognizing the small things that make a big difference. Your thoughtful donation of items to help stock the kitchen shelves, the linen cupboards, the closets and cleaning supplies to keep the Farmhouse running are greatly appreciated!
