

Stay Comfortably

from Habitat for Humanity ReStore

Deb Stanson, at the Fergus Habitat for Humanity ReStore, worked hard to gather all the furniture items for the farmhouse that were donated by our amazing community members. Habitat ReStores resell new or gently used donations from customers – since 1991 over 1 billion pounds have been diverted from landfills! So not only does the Farmhouse now look stylish, but you can also feel good about helping keep our community's environment healthy and strong. Fergus Habitat ReStore is happy to welcome you all to our community, and hope you enjoy your comfortable new home in Centre Wellington.
