

## NOTICE OF PUBLIC CONSULTATION CENTRE / OPEN HOUSE

The Township of Woolwich and the Township of Centre Wellington are hosting a Public Consultation Centre (PCC) to review and discuss a Municipal Class Environmental Assessment (EA) study for The Middlebrook Concrete Bridge (Bridge #170160) and the Middlebrook Truss Bridge (Bridge #180160), located on Middlebrook Place / Weisenberg Road, 300 m and 450 m southeast of Middlebrook Road, respectively (see key map below). Structural inspections have identified the need for permanent closure, repairs or replacement of the Middlebrook Truss Bridge and the Middlebrook Concrete Bridge due to their condition.

The Municipal Class EA study will examine these issues in greater detail, evaluate potential options and impacts associated with each option, and identify the preferred solution to address the short and long term needs of the bridge

Several alternatives are being considered for the bridge as part of the study and may include: rehabilitation, replacement, conversion to a pedestrian bridge, permanent closure, removal including construction of cul-du-sacs and a “do nothing” alternative, which would eventually result in one of the other alternatives.

An integral component of this study is consultation with directly affected stakeholders, agencies and the general public.

The PCC will be an open house drop-in format with staff from the Township of Woolwich, Township of Centre Wellington, and GM BluePlan Engineering available to provide information related to the project and address any questions or concerns that you may have. Display boards of the Municipal Class EA information, along with information packages and comment forms, will be available for your review.

**Place: Basement Hall, Bethel Mennonite Church, 6772 Eighth Line West, Centre Wellington**

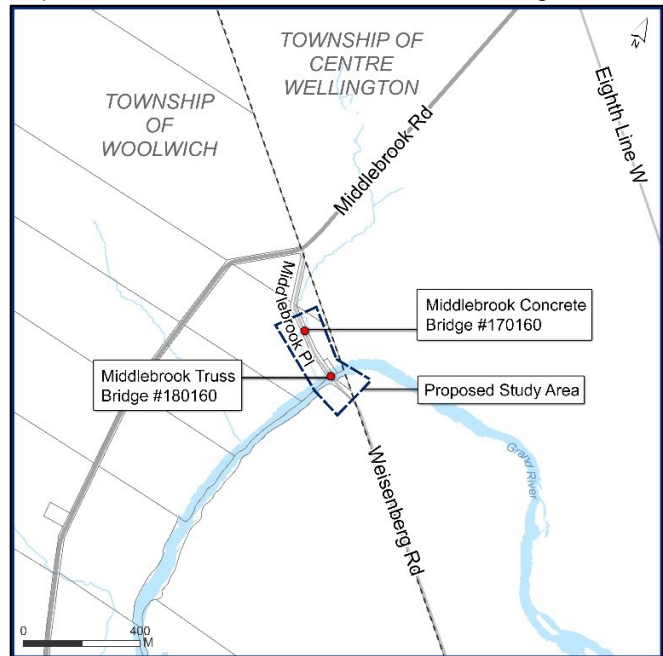

**Date: Tuesday, November 27, 2018**

**Time: 5:30 pm to 8:00 pm**
