

Sleep Soundly

from Shades4U

Subin and his wife both work at Grand River Hospital and recently moved to Fergus. They created Shades4U, based out of Salem, to provide quality, functional, and beautiful window coverings to our community. They know working in the healthcare field comes with many different shifts, including ones where your shift ends when the sun is coming up! They can relate to the work you do and the necessity to sleep when you can, so donating the black-out shades in all the bedrooms was something they jumped on without hesitation!

www.shades4u.ca

Thank you to Subin and team for providing a great product that will help the people staying at the Gartshore Farmhouse get some restful sleeps – day or night!
