### Design Tips:

- Lighting should attract attention to building details, but not to itself.
- Fixtures should enhance and complement a building's architectural details - priority will be given to buildings with distinct architectural elements.
- Lighting will be installed on the facade, at the top of the second floor.
- Lighting is programmable for various occasions and events. The Township will maintain control of colours and timing.

### General Information:

- The applicant will be required to enter into an agreement with the Township.
- The owner is required to grant Wi-Fi access to the Township for the purposes of controlling the lighting.
- Works must be completed within the calendar year in which they were approved.
- Owners are required to maintain the lighting for ten years.
- Number of fixtures and spacing is dependent on size of building facade.
